## MISS MAY MARKELL,

A Society Belle of London, Canada.

MISS MAY MARKELL of London, Ontario, Canada, is a beautiful girl who knows what suffering is and Wine of Cardui has brought her back to health. She is one of the social favorites of her home and her recovery to health has permitted her to enjoy the company of her many friends instead of lying on a bed of sickness and suffering. For the health she now enjoys she gives credit to Wine of Cardui. She writes:

Miss May Markell.

"I have found Wine of Cardui an excellent remedy for female trouble. I suffered for three years with terrible bearing-down pains at the menstrual period. I could hardly stand on my feet and was never real well. Wine of Cardui was the only medicine that I could depend on to do me any good, as I tried several with no success. Wine of Cardui cured me and I have now enjoyed perfect health for two years, and give you all the credit for I know you deserve it."

For a young girl Wine of Cardui is the best remedy to guide her through womanhood by starting the menstrual

flow in a healthy and natural manner. Menstruation started right is very easy to keep regular through the years of mature womanhood. Then the "change of life" need not be feared. Thus Wine of Cardui is woman's best relief from youth to old age. A million women have secured blessed relief from their sufferings by taking this treatment. It relieves menstrual troubles in an incredibly short time. In a simple case of deranged menses Wine of Cardui never fails. To relieve disordered menses is to remove the cause of other female troubles. Any physician will tell you that to remove the cause of a disease renders the cure easy, in fact seldom fails to complete the cure. If you would have the same relief which Miss Markell secured try Wine of Cardui. You can take it without an examination and without any publicity whatever. You can take it in the privacy of your home and secure just as much benefit as if a doctor had prescribed it for you. Thousands of women are feeling the vigor of returning health by taking Wine of Cardui.

## WINE of CARDUI

## HON. R. M. LOVE FATALLY SHOT

Dies About One Hour After  
the Tragic Affair.

## DEED WAS DONE BY AN EX-CLERK

Latter Fatally Wounded in Scuffle  
For the Weapon.

## OFFICIAL WAS READING A LETTER AT TIME.

The Deplorable Event Happened at  
Early Hour on Tuesday, Causing  
Great Excitement at  
Lone Star Capital.

Austin, June 30.—Comptroller R. M. Love was assassinated at 10:30 o'clock this morning while sitting in his office in the state house. The deed was committed by W. G. Hill, an ex-employee of the comptroller's department, who entered the office and presented Love with a letter of recommendation, recommending Hill for a position in the department. While Colonel Love was reading the letter Hill, without a word of warning, pulled out a 44-caliber pistol and pointing it at the breast of comptroller, fired. The ball took effect just below the nipple in the region of the heart. Love sank to the floor, and while he was falling Hill fired another shot, striking Love in the back. J. W. Stephens, an employee of the department, who was working near by Love's private office, rushed in and made an attempt to take the pistol away from Hill. In the scuffle the pistol was discharged and Hill was shot just below the breast. He was picked up and carried to the Austin sanitarium. He cannot live. Love gradually sank until about one hour after being shot, when he expired.

The shooting created great excitement over the city and a few minutes after the tragedy the state house was packed with people. The following dying statement was made by Comptroller Love: "Mr. Hill shot me. He presented a letter of endorsement to me for a place in the department. I was reading the letter when he shot me. I had asked him about his brother's wife's death. I regretted her death very much. Mrs. Hill was a good woman. I have no idea why he shot me. May the Lord bless him and forgive him. I cannot say any more." With this statement he expired.

Several physicians had been summoned and did all in their power to prolong life, but to no avail. Either shot would have proved fatal, according to the doctors.

Rev. M. F. Cowden, a minister of Bonham, who is here, walked into the office with Hill and the latter introduced him to Love, and then Mr. Cowden walked out of the office. He said that he immediately after heard the shots. The tragedy was the alleged result of a grievance which Hill had against Love for discharging him from the office about a year ago. Hill since that time had been employed in the office of the Austin Water and Light plant and is of a quiet disposition. When he was seen he was suffering so much that it was impossible to get much out of him. He said: "I shot Comptroller Love, but I did not shoot myself. I shot Love because he did not treat me right. I want it understood that I did not shoot myself."

Governor Lanham was among the first on the scene and Comptroller Love requested the governor to appoint J. W. Stephens to the position of comptroller. He is now chief bookkeeper. The governor did not promise, but said: "Don't you worry; I will take care of your official family."

## AWFUL EXPLOSION.

Two Hundred Persons Killed and  
Wounded in a Mine.

Evanson, Wyo., June 30.—A report has been received that 200 men were killed and injured in a coal mine explosion at Hanna, Wyo.

## Killed by His Fiancee.

Minturn, Col., June 30.—Ed Murphy, a Denver and Rio Grande fireman, was shot and killed by Miss Grace Nottingham, said to have been his fiancee. There were no witnesses, and while she admits the killing, Miss Nottingham is too hysterical to give any further information regarding the affair. Murphy's parents live at Salina, Kan.

## SALUTED WITH GUN.

Prominent Merchant Celebrates His  
Return to Jackson by Puncturing  
the Atmosphere With  
Several Bullets.

Jackson, Ky., June 30.—Considerable surprise was created by an announcement from Circuit Judge Redwine that he will not vacate the bench during the special term of court called for next week. The special term was called in order that a special grand jury might investigate the assassinations of Jim Cockrill and Dr. Cox, who were assassinated prior to the killing of Marcum. Dr. Cox was killed in April, 1902, and Cockrill in July of the same year. The assassin of Cockrill fired the shot from a room in the court house, while Dr. Cox was killed as he passed a stable, owned by Judge Hargis. The burning of J. B. Ewen's hotel and other cases of arson and the attempt to bribe Ewen to perjure himself during the trial of Jett and White will also be probed at the special term.

A prominent merchant who arrived in town Monday, decided to announce his return home after the fashion favored by many Jackson residents, when they are in exuberant spirits. He jerked out his pistol as he stepped off the train and was about to puncture the heavens with a fountain of bullets. The quickness of the Jacksonian on the trigger was of no avail. A sentry of the provost guard was quicker and jerked the gun away before the merchant could shoot. The offender was taken before Police Judge Cardwell, and fined \$25 and costs for carrying concealed and deadly weapons.

## Encampment at Jackson.

Frankfort, Ky., June 30.—Governor Beckham has determined to take advantage of the necessity for keeping state troops at Jackson. Breathitt county, by making that place the scene of the annual camp of instruction of all soldiers of the Second regiment of the Kentucky guard. This will save the state considerable as a camp of instruction is especially necessary this year in advance of the combined maneuvers which the regular soldiers of the department of the lakes which is to be held in this state in October next.

## RACE QUESTION.

Afro-American Press Association Is  
to Issue an Address.

Louisville, Ky., June 30.—At the annual session of the Afro-American Press association held here an address dealing with the race question was unanimously adopted for issuance to the country at large. The address calls on the people to enforce the principles of good government in the present history of the Afro-American people, "when a systematic and thoroughly organized movement, begun in 1863, is working with malicious and malignant energy to utterly destroy the civil and political rights of those for whom we stand in some part as spokesmen."

## GREAT BLAZE.

Twelve Thousand Barrels of Oil Burn  
at a Creosoting Works.

Mobile, Ala., June 30.—The creosote works of the Louisville and Nashville Railway company at West Pascagoula, Miss., were destroyed by fire, which began by the dropping of a red hot bolt by some mechanics who were working on an elevated oil tank. The bolt fell into the tank and the explosion occurred, and the workmen barely escaped with their lives. The fire company from Moss Point hastened to the scene with two engines, and seven tug boats added their streams, but the fire was so fierce that it could not be checked. The whole structure was burned, together with 12,000 barrels of oil, several cars and much valuable timber creosoted or ready for the creosoting process, also the section houses and cottages occupied by the employees of the railroad and the works. The rails of the road were twisted into circles covering 400 yards and all traffic was suspended. The fire was not under control until half past six o'clock. Gautier Brothers' saw mill, residences and other property were for awhile in great danger, as the saw dust and ground around about was saturated with creosote and burned fiercely. Damage is estimated at \$250,000.

## Indigestion Causes Catarrh of the Stomach.

For many years it has been supposed that Catarrh of the Stomach caused indigestion and dyspepsia, but the truth is exactly the opposite. Indigestion causes catarrh. Repeated attacks of indigestion inflame the mucous membranes lining the stomach and exposes the nerves of the stomach, thus causing the glands to secrete mucus instead of the juices of natural digestion. This is called Catarrh of the Stomach.

## Kodol Dyspepsia Cure

relieves all inflammation of the mucous membranes lining the stomach, protects the nerves, and cures bad breath, sour risings, a sense of fullness after eating, indigestion, dyspepsia and all stomach troubles.

BRYAN, TEXAS, JULY 1, 1903

A Tobacco Experiment Station for Bryan.

To the Bryan Eagle:

Bryan, Texas, June 29, 1903.—Evidently the agricultural possibilities of Texas have made a most favorable impression on the mind of Hon. James Wilson, secretary of the National Agricultural Department. The secretary of agriculture has visited Texas and from personal conversation, I know that he was more than surprised and pleased with the great agricultural resources of the state. One of the results is that the National Agricultural department has decided to establish several tobacco experiment stations in Texas. Mr. L. H. Shelfer, the government tobacco expert, is now in the state looking for suitable places to locate these stations. He was in Hallettsville last Friday prospecting. At Nacodoches it has been decided to establish one of these stations and to erect a central curing warehouse where all leaf tobacco raised in this and other southern states can be brought for treatment.

Mr. Shelfer says the soil about Nacodoches will produce tobacco "equal if not superior, to the leaf tobacco grown in celebrated Vuela Abaja district of Pinar del Rio, Cuba, known as the rarest and most expensive cigar leaf tobacco in the world."

About two years ago tobacco raised near Bryan was shown at the Fruit, Flower and Vegetable exhibit in Houston, and there com-

peted with tobacco raised in all parts of Texas including the east Texas and the noted "Willis" tobacco. In this contest the Bryan raised tobacco was awarded the first prize. This is certainly enough to induce the people here to invite Mr. Shelfer here to investigate the soils in this and adjoining counties. Permit me to suggest that an invitation be sent at once to Mr. Shelfer urging him to visit and inspect the soils in this section with the view of locating an experiment station here. If not located at Bryan let it be at the A. and M. college in connection with the National Experiment station already located there. If this invitation is sent signed by Dr. Houston, president of the A. and M. college, and by the director of the experiment station, also by the president, secretary and other members of the Bryan Business League, besides prominent citizens of the county, it is believed he would most cheerfully comply with their request. Should the soil here be found suited to tobacco raising it would be a long step in helping to "diversify crops." We do not believe the Mexican boll weevil would very readily take to tobacco.

The prospective good results are certainly worthy of the effort. The matter is now passed up to the president and secretary of the Bryan Business League to act if deemed advisable.

The man who succeeds nowadays is he who mixes brains with his business. An Indian Territory man shipped a carload of hogs to the packers at Ft. Secretary of State Curl Will Furnish  
Laws to County Officials.

Austin, June 30.—Secretary of State Curl gave out the following:

An erroneous impression seems to prevail that a new law has been enacted relative to furnishing laws to county officers. It is simply a question of construction of laws existing for many years. It seems that former secretaries of state have in recent years been declining to furnish the laws, only to such county officers who pay for and receive their commissions.

Secretary of State Curl takes the position that it is of paramount importance that county officers should be informed as to the laws of the state, and in the exercise of the discretion vested in the secretary of state by the law, he has adopted the rule to supply the county officers with the session acts of the Twenty-eighth legislature, without regard to whether or not they may have taken out their commission.

### COMPTROLLER LOVE KILLED.

Assassinated by a Man Named Hill, Who also Lost his Life in the Struggle Following.

Comptroller R. M. Love was shot and killed in his office at the capitol in Austin yesterday by a man named W. G. Hill, a former employe of the department under Comptroller Finley.

The Eagle learned upon inquiry that Hill entered the office as an applicant for a position with a recommendation, and shot Love while the latter was reading the paper. In a struggle which ensued Hill was shot and killed accidentally. Mr. Love lived forty minutes after being shot.

Hill lived in Austin, and was a brother of Dr. Hill of Manor. He was said to be a quiet, inoffensive person, and the crime is attributed to unsoundness of mind.

The tragedy has cast a gloom over the entire state. Comptroller Love was one of the best of men, and greatly beloved. He was for many years sheriff of Limestone county.

Hill formerly lived in Bryan and married a niece of Mr. and Mrs. A. Worley of this city—a daughter of Rev. B. B. Sanders.

### HENDERSON-KING.

Mr. T. H. Henderson of San Antonio and Miss Ella King were married at the bride's home in this city yesterday morning at 11 o'clock, Dr. W. C. Friley, pastor of the First Baptist church officiating. It was a quiet wedding with no attendants and only relatives and a few friends present. The rooms were made very beautiful with natural flowers and the bride wore a handsome traveling suit of gray crape de chene. The couple left at noon via the I. & G. N. for San Antonio and Monterey, Mexico. They will be absent three weeks and will return to San Antonio to make their home. Mr. Henderson is an engineer on the main line of the I. & G. N. and much esteemed by those who know him. The bride was reared in Bryan and is possessed of many lovable attributes of character which endear her to a large circle of friends.

### ALABAMA LYNCHING.

**Negro Taken Out of Jail After Sheriff Was Twice Shot and Strung Up.**  
Nashville, Tenn., June 30.—A special to the Banner from Scottsboro, Ala., says Andrew Diggs, a negro, was taken from jail Monday night and hanged by a mob. The negro was arrested Sunday for an attempt to criminally assault Miss Alma, the ten-year-old daughter of Dr. B. B. Smith, and the first that Sheriff Austin knew of the mob was when it put in an appearance in the hallway of the jail. The sheriff seized two pistols and mounting the stairs said he would kill any one who attempted to come up. The threat was met with a volley and the sheriff emptied his revolver in reply. Before he could reload he was shot down. The daughter of the sheriff ran to her father and was at once covered by a pistol in the hands of a member of the mob and made to deliver the keys to the cell in which the negro was confined. The cell was quickly opened and the trembling negro led out with a halter. He was marched to a place in the west end of the town, where the other end was thrown over the cross-arm of a telegraph pole and the negro drawn up. Telephone wires were cut to prevent calling for aid. One of the masked men went across the square and summoned a doctor, who responded promptly and dressed the wounds of the sheriff. The lynching was so quietly conducted that only a few people knew of the approach of the mob or the hanging.

### WAS SERIOUS.

**Two Victims of the Elevator Accident at Pittsburgh Are Dying.**

Pittsburgh, June 30.—As a result of careful examinations at the various hospitals, it is found a number of victims of the Heinz elevator accident were more seriously hurt than at first reported and two will probably die. Glen Falls, N. Y., June 30.—By an explosion of fireworks at Lake George, N. Y. Sisson's store has been wrecked and Freddie Alston, eight years of age, was badly burned and will probably die.

Sisson had laid in a large quantity of fireworks, firecrackers, etc., which attracted a crowd of boys in front of the store. Beginning tomorrow, she will for six months answer the first ambulance calls at Gouverneur.

### IMPORTANT POINTS.

**Sheriff Claims to Have Found Them in McCann Murder Case.**

St. Louis, June 30.—Sheriff Hencken of St. Louis county, into whose custody Barrington was given after the visit to the stone quarry, where McCann's body was found, developed two important points. He secured from Barrington the statement that he and McCann were alone at Bonfils on the night of the murder, June 18, when they had trouble, and threatened him several times because he interfered between him (McCann) and Mrs. McCann, when they had quarrels.

In the second place Sheriff Hencken found out that Barrington spoke German fluently, and with an accent which makes both the sheriff and others who heard him talk believe that he is a native German, and not an Englishman.
